## WAYNE W. SELL LAUNCHES NEW CORPORATE WEB SITE

*New site offers automated customer service capabilities and enhanced Careers section*

**PITTSBURGH, PA – June 6, 2012** – Wayne W. Sell Corporation (Wayne W. Sell), a leader in the transportation of flat, van and bulk commodities across the Midwest and North East, today announced the launch of its new corporate web site. The new site delivers enhanced service capabilities to its customers and provides a more informative and user-friendly Careers section for driver job candidates. It also introduces the company’s new corporate logo, which includes the company’s signature horse emblem that has been part of Wayne Sell’s identity since its founding in 1954.

“We’re very excited about launching our updated site,” said John Sell, president of Wayne W. Sell, son of the company’s late founder. “The important things about our company that have contributed to our longevity and success – our commitment to superior customer service and on-time delivery – have not changed. But through the years a lot about the company has changed – from investments in technology to modernizing our fleet. The result has been very positive growth. We are pleased that our new site and logo reflect these positive changes and look forward to building on our strong foundation for continued growth.”

The company’s new site provides on-line servicing capabilities that enable shipment scheduling and quotes. As part of the company’s ongoing initiative to hire more drivers, the new site also includes an online Careers center that offers drivers the ability to apply online and to access more detailed information about the company’s pay and benefit packages.
